Dr. V. L. Lewis was here Thursday to see Mrs. Celia Bohanon.

Miss Anna Center is at home from Kingston, where she has been nursing Mrs. C. J. Wheeler attended the conference at Crossville Friday and Saturday.

During a storm last Wednesday about 2 p. m., the barn of D. M. Wheeler was struck by lightning. Emmet Turner, who had just driven into the barn with a two horse wagon, was struck by the lightning and Charles Turner, a son of John Turner, who was with him, was also struck. Emmet Turner recovered sufficiently to crawl from the burning barn and Charles Turner was carried out by his father. The barn was entirely destroyed with the horses and wagon and also a horse belonging to Mrs. Lee Nolan. Emmet Turner has recovered from the shock and the boy is improving.

William C. Renfro died at his home, the old Crab Orchard Inn, Tuesday, June 14th, after an illness of several months, of Bright's Disease. The funeral services were held at the Baptist church at three p. m. Wednesday, conducted by Rev. S. W. Rose, it being a request of Mr. Renfro that Mr. Rose hold his funeral. The remains were interred in the Wheeler cemetery.

The deceased was 72 years old and had been a consistent member of the Baptist church for 51 years. In his devotion to his church and to religion he had few equals. He was always present. Nothing but illness or absence from home prevented his faithful attendance during all the 51 years. He was superintendent of the Sunday School at different times and led the prayer meetings and any religious services where his services were required he was a most willing and tireless worker. He enjoyed the highest esteem of the pastors and members of all denominations here. He was a member of the County Board of Education for a number of years and gave his time and interest to the betterment of the schools. He enjoyed a wide circle of friends in this County and throughout the entire country, having lived at the Crab Orchard Inn for more than 40 years.

He leaves one son, Robert Renfro, a daughter, Mrs. Cora Hamell, of Atlanta, Ga., two brothers, G. W. and John, of this place, and three sisters, Mrs. W. H. Fleming, of Knoxville, Mrs. Mary Hamby and Miss Alice Renfro, of this place, and numerous other relatives.

The floral tributes were many and very beautiful.

Patton and Winifred Patton, of Jefferson City; Mrs. Hugh Crow, Knoxville; Will Renfro, Linary; Geo. T. Renfro, Nashville; Mr. and Mrs. W. H. **To Bore a Conical Hole Through Wood.**

When you have a conical hole to bore, such as for a handle hole in a wooden maul or other similar place, leave the cutter of an expensive auger bit a trifle loose and begin boring at the side where the smaller end of the hole is wanted. The inner edge of the cutter lip being angular, the cutter will gradually draw itself out from the body of the bit, making the hole larger as the bit goes into the wood.—Popular Science Monthly.

**Gender of the Sun.**

In modern English literature the sun is invariably referred to as masculine and its gender is now so fixed. But in old English the sun was always termed feminine, as it is in Milton; Shakespeare, however, considered the sun masculine. The Germans still refer to the sun as feminine, while in French it is masculine.

**PEOPLE OF OUR TOWN**

The Bully beat up his Wife last week and he is now En Route to beat up the Editor for Putting it in the Paper. The Editor will remind the Bully that he is merely Printing the News, not Making it, and then he will Bust the Bully over the Bean with the Mallet and set him out in the Alley to Rest Up.

Character must stand behind and back up everything—the sermon, the poem, the picture, the play. None of them is worth a straw without it.

# Sure enough, the old bus went back on me

**Air-Tight Tins of 50**

Ask your dealer to show you the new vacuum-sealed tins of 50 Chesterfields. A compact, convenient and absolutely AIR-TIGHT packing—the cigarettes keep fresh indefinitely.

IT WAS a whale.  
OF A hill, and the old bus.  
GROANED AND shuddered.  
AND FINALLY stalled.  
AND YOU could fry eggs.  
ON THE radiator.  
WELL, WHAT I know.  
ABOUT BUZZ wagons.  
COULD BE written big.  
ON A postage stamp.  
BUT I fiddled around.  
AND TORE my new shirt.  
AND GOT all smeared up.  
THE ENGINE would start.  
BUT LIZZIE wouldn't.  
NOT ON that hill.  
SO I quit and lit up.  
ONE OF my cigarettes.  
AND THOUGHT it over.  
THEN I had a hunch.

PUSHED HER around.  
PULLED A thing-a-ma-jig.  
AND THE blame boat.  
BACKED UP the hill.  
WITHOUT EVEN hesitating.  
SO I learned a trick.  
WHICH EVERY driver.  
SHOULD REMEMBER.  
WHEN IN doubt, light up.  
A "SATISFY" cigarette.  
FOR WITH one of those.  
GEARED TO your teeth.  
YOU CAN start anything.

IT didn't take much persuasion to get Chesterfields going—they're self-starters. That blend of fine Turkish and Domestic tobaccos makes friends by the millions. Another thing—you don't find a Chesterfield smoker "shifting" brands—he's in "high" all the time.

**How Lampreys Lay Eggs.**

Lampreys are eel-like residents in the ocean that run into the fresh water at the mouth of rivers in the spring and build the nest in which their eggs are deposited. They pick out the pebbles in the bottom of the river, using the suction power of their large mouths to dislodge the stone, and deposit eggs in the spot selected.

**Trees for Korea.**

Reforestation in Korea started with a handful of seeds planted by a Methodist missionary at Chenuipo, some 20 years ago, says the American Forestry Magazine. The work of providing shade trees for their stations was taken up by other missionaries, and in a few years the oppressive barrenness of the Korean hills was broken here and there by clumps of boxelder trees about the American mission stations.

**Machine Scrapes Off Paint.**

In the renovation of an automobile the greatest labor is in removing the old paint, which was formerly done by hand at a considerable expense of time and labor. This is now performed by a machine which does the work in a very effective manner and very quickly.

**English Language Gaining.**

To the observing student of the times, one of the wonders of this age is the spread of the English language. At the present time it is spoken by nearly 200,000,000 people. Each year adds a long list to the English-speaking world. Not many know that in the Philippines today more people speak the English language than spoke Spanish after 300 years under Spanish dominion.

**Quality of Foods.**

Hard foods are a necessary part of a hygienic diet. The teeth need exercise, it must be remembered. Therefore, one way of keeping teeth in good condition is to eat hard foods, such as breadcrusts, toast, hard fruits, nuts and fibrous vegetables. Hard food causes the saliva and gastric juice to flow. If in addition to being hard the food is dry, the greater the flow of the saliva and gastric juice.

**Festival of the Quail.**

In the Mediterranean, no bird is better known than the quail. Twice a year he passes over the great inland sea. His coming is quite a festival, and many an outstanding bill and many a peasant's overdue rent is paid at his expense.

**Suggestions in Order.**

Jud Tunkins says a bird that can sing and won't sing must be made to sing—but how are you going to make it?
